

LOUADA SHORTHORN DISPERSION

SATURDAY
OCTOBER 3
1970

FRONT COVER

This is Kelso Ignition (P) as he looked at 18 months at the Kelso Stud in Australia. He has been in service at Louada for some time and a large number of females carry his service.

Louada Manor Farms

DISPERSION

***The Most Important
Sale of the Decade***

100 LOTS SELL

Saturday October 3

at the farm near

Peterborough, Ontario

**Selling at Louada on October 3
are, from left, Fraalawn Augusta
Anne, Lot 56, and Louada Queen
Delicia, Lot 20. Both are by
Louada Royal Leader.**

LOUIS CADESKY

In Memoriam

Louis Cadesky

To Louis Cadesky, a man who brought greatness to Louada and to his breed with wisdom, sagacity, foresight, humility, perseverance and abounding good cheer.

EDITORIAL
THE SHORTHORN WORLD

August 1, 1970

Selling from left are Louada Queen Fabiola 2nd, Lot 25; Louada Rosewood Rena, Lot 41; Louada Rothes Kim, Lot 16; Louada Rothes Fiona, Lot 29; Louada Rothes Flo 4th, Lot 24, and Louada Judy Clara 3rd, Lot 14.

W. W. DONALDSON

from the herd I have assembled. In all other respects, the sale will be the same as before except, of course, the buying opportunities are greater since it includes the entire Louada Manor cow herd . . . females that otherwise would never have been sold.

Although this is a very real dispersion, the Louada name will be continued on my own cattle in the future.

There will be a somewhat new look at Louada this year. We're in the polled business very earnestly with two of the best bulls that could be found in Australia and North America. We believe you will approve of them and the very excellent females carrying their calves. Remember, those females are the end result of Mr. Cadesky's very careful 25-year breeding program.

W. W. Donaldson

Welcome to Louada

There will be a void at Louada this year when you return to our 17th sale. Louis Cadesky, Louada's owner for 25 years, will not be with us. His untimely death was a blow to the breed everywhere. No man ever enjoyed his own cattle more or worked harder for their success. None was ever more enthusiastic about the entire breed. He delighted in every breed victory everywhere.

Because of his death, this sale represents the dispersion of all of his cattle. Also included will be some of the young females

The Louada

Dispersion . . .

. . . the Louada

Future

The entire Shorthorn industry was shocked and saddened by the untimely death of Louis Cadesky in late July. For 25 years he had guided Louada to a pre-eminence unparalleled in the beef cattle industry.

Bold, sweeping masterstrokes were his. The meteoric record of Bapton Constructor and his sons forms a vital and exciting part of breed history. In each year, bigger news broke at Louada. The entire Saltoun herd was imported. Then the entire Bapton herd. Bulls were shipped for auction in Argentina. Annually, the Louada sale has stood as the world's best. Price records fell, both privately and at auction. The Louada record of champions and All-Americans fills volumes.

All of these great achievements were and are continuing proof of the ever-high standard of excellence and achievement at Louada. Only with a rare combination of interest between Mr. Cadesky and Wib Donaldson could the last quarter century of greatness have been achieved.

This year came the boldest stroke of them all. Louada became the first in North America ever to use a Polled Shorthorn bull from Australia. At the same time, Louada embarked seriously into the Polled Shorthorn business with both Kelso Ignition (P) and the grand old Four Dees Command 50th x.

It's tragic that Lou Cadesky was not permitted to see in full operation the new project that he had helped to plan so carefully for Louada.

This sale is a dispersion in the very real sense. All of the cattle owned by Mr. Cadesky and Louada Manor Farms will be sold without reservation of any kind. Nothing has been

From left are Louada Augusta Queen 25th, Lot 64; Louada Broadhooks Shirley, Lot 74; Louada Broadhooks Sheila, Lot 73; Denend Princess Alice, Lot 83; Louada Rothes Flo 3rd, Lot 22; Louada Augusta Queen 28th, Lot 62; Louada Rothes Flo 2nd, Lot 23; Fra-lawn Actress 4th, Lot 69, and Louada Princess Ramona 2nd, Lot 34. The calves are by Chapelton Glen Fyne and Duncrahill Happy Man.

sold privately although one or two old, unsalable cows have been destroyed. The sale will also include a number of bulls and females from Wib Donaldson's own herd. After October 3, the Donaldson cattle will continue under the Louada name.

Here is a rare opportunity. It has taken 25 years of careful planning, selection and breeding to develop the Louada herd. Only the best have been purchased and they've come from around the world to form the most powerful herd the world has ever known. Now they can be yours.

There will always be a Louada, but it may well be years before another opportunity like this arises. Far-sighted Shorthorn and Polled Shorthorn breeders will take advantage of it on October 3.

HARRIS SIMONS
The Shorthorn World

GENERAL SALE INFORMATION

TIME AND PLACE . . . Saturday, October 3, 1970, at Louada Manor Farms, Peterborough, Ont. The farm is about 20 miles north of Peterborough which is about 80 miles from Toronto. Sale starts at 12 noon.

TRANSPORTATION . . . From Toronto the Canadian Pacific runs frequent trains to Peterborough. Toronto is reached easily by any means of transportation. If you wish to be met in Toronto, we will be happy to do so, but please let us know sufficiently in advance. See pages 7 and 8 for more detailed information.

HOTEL ACCOMMODATIONS . . . Sale headquarters will be the Rock Haven Motel in Peterborough. You may write them directly telling them you are attending this sale, or write to Wilbur Donaldson, Louada Manor Farms, R. 2, Peterborough, Ont., who will be glad to make reservations for you. Other good motels are the Holiday Inn located on Highway 7B in Peterborough on George St. The Tops and the Golden Nugget are both on Highway 28 at the west edge of Peterborough. The Karwatha is located on Lansdowne St. in Peterborough. We also recommend The Empress Hotel, Peterborough. Transportation from all these will be provided to and from the farm. A block of rooms has been reserved in the Rock Haven and the Holiday Inn, but they cannot be held indefinitely. Accordingly, please make your reservations early.

AUCTIONEERS . . . Paul Good, Van Wert, Ohio, and Jock Blacklock, Saskatoon, Sask.

GUARANTEE . . . Since this is a dispersion, the following guarantee will apply. All bulls are guaranteed breeders. All females with calves at foot or dry cows that are examined safe in calf, are considered breeders and no further guarantee is given. Calves at foot and heifers less than 14 months cannot be guaranteed. As a practical matter, there are only four open heifers selling, except for the many heifer calves at foot. A condition of this guarantee is that written notice of failure to breed must be given to Louada Manor Farms in writing within six months of the date of sale.

HEALTH . . . All cattle will be sold under the laws of Ontario and will comply for entrance to the United States. Official caffhood vaccination of females is practiced and the herd is accredited for T.B. and is in a certified Brucellosis free area.

TERMS . . . The terms of this sale are cash. Checks should be handed to the clerk immediately following the auction. Please be sure to have the clerk record your shipping instructions. All announcements at sale time, written or oral, supersede any written material in this catalog.

LIABILITY . . . Louada Manor Farms, its owners and employees accept no liability for accidents that may occur. Accidents at cattle sales are very rare, but all attending must do so at their own risk. The sale manager and his staff, auctioneers, and clerks were employed by the owners for specific tasks, promotional and clerical, and have no connection with the handling of the cattle, the condition of the premises, fulfillment of guarantees, or health papers. The sale of each animal constitutes a contract between the buyer

and seller of each lot, but the sale manager cannot be responsible for the fulfillment of that contract.

LUNCH . . . A ladies church organization will have lunch available sale day.

FARM PHONE: (705) 657-8840. This phone is nearest the sale barn and this is the number that should be used on sale day.

FARM STAFF: Walter Cummings, Superintendent. Staff: Lee Rintoul, Clarion Coppaway, Murray Mewhinney, Paul Kilfoil, Jacob Sturzenegger, John Smith and Wes James.

FOR FURTHER INFORMATION ON SALE CATTLE . . . The farm manager or sale manager will give you his critical appraisal of any of the cattle listed in the auction.

MAIL BIDS . . . We hope it will be possible for you to attend this sale. If it is not, there are many competent representatives to whom bids may be sent, all of whom will be attending the sale:

E. H. Stoltz, Canadian Shorthorn Ass'n, Gummer Bldg., Guelph, Ont.

C. D. Swaffar, American Shorthorn Ass'n, 8288 Hascall Street, Omaha, Nebraska.

Harris Simons, The Shorthorn World, 16 S. Locust St., Aurora, Ill.

Dan McCoy, The Shorthorn World, Aurora, Illinois.

Lyle Eiten, The Prairie Farmer, Ladd, Illinois.

C. K. Tomson, Harding & Harding, Geneva, Illinois.

Ed Huff, Livestock Breeder Journal, Culpeper, Virginia.

Al Hamann, Rock Rapids, Iowa.

W. L. Elliott, Secretary, Ontario Shorthorn Club, R. 4, Guelph, Ont.

Bill Powell, The Drovers Journal, Kansas City, Mo.

. . . or to any of the auctioneers listed, the owners or employees of Louada. All these representatives may be reached at the farm phone listed above within 24 hours of the sale.

INSURANCE . . . Will be available at the sale.

PEDIGREES . . . Pedigrees on each lot will be furnished to the new owner transferred on the records on the Canadian Livestock Records Ass'n. Further transfer to the herd books of other countries will be at the expense of the buyer. Transfer from Canada to the U.S. herd book will cost \$10 a head to the new owner.

PREMIUM ON U.S. DOLLARS . . . The U.S. dollar is at a premium of about 3% in Canada. This exchange differential more often than not pays the buyer's cost of getting animals home.

Expressway 401 across Ontario is completed. This means you can drive across Ontario with ease and make good time. Coming from Detroit, go over the bridge (not through the tunnel). West and south of Detroit are fine expressway roads connecting with the Michigan, Ohio, Indiana, and Illinois turnpike systems. From Ohio and farther east study the turnpike systems which lead through the Buffalo and Niagara Falls area. Many of our friends in the Midwest will be able to get on expressways in Illinois and Ohio, for example, and stay on them until they turn north off 401 to Peterborough.

PETERBOROUGH AREA

From junction of 7 and 28 continue north on 7 to Fowler's Corners. Do not take 28 as it goes into Peterborough. From Fowler's Corners go east on 7B four miles to Chemong Road leading north to Bridgenorth. Then across Chemong Lake at Bridgenorth, follow farm signs through Ennismore and on to Louada Manor Farms.

These maps are crudely drawn and are not meant to replace road maps. We feel they will be helpful, however.

TRAIN AND PLANE INFORMATION

By air . . . Chicago to Toronto

Air Canada, United and American airlines have many flights a day — each way — between Chicago and Toronto, leaving from O'Hare Airport.

By air . . . from other points

In the eastern part of the country, there are direct flights to Toronto from New York and Cleveland. Excellent service also from the Canadian West and East.

By rail . . .

You can take a sleeper out of Chicago to Toronto and return the same way. Trains generally leave Chicago about 8 p.m. and arrive in Toronto early in the morning. The train from Toronto to Chicago leaves about 10 p.m. Since schedules are subject to change, please check exact departure times.

By automobile . . .

The present super-highway system makes the drive a good deal easier than ever before. We would like to point out, however, that the cost of a round trip airplane ticket from Chicago-Toronto is only about \$65. Rail is about the same. Traveling alone, it is difficult to beat this by car.

By rail . . . Toronto-Peterborough

There is good service but there are changes in schedules and we shall not attempt to give you times here. If you have traveled to Toronto by train and find that you can make a good connection on to Peterborough, it will probably be best for you to do so because it is a fast train. However, if you are to encounter a long delay, we would prefer that you call W. W. Donaldson (705) 743-6980, and we will arrange to pick you up with others coming from the airport. Coming back from Peterborough to

Toronto there are generally trains at times that will enable you to make your connections, but in the event you cannot find a convenient connection, we will see to it you have transportation to Toronto.

Meeting you in Toronto

We will be happy to meet your plane. It is about a two-hour drive to the farm. Try to arrive early enough so you won't miss the gathering at the farm Friday afternoon. Please advise us in advance of your arrival time. Then you should report to the flight information desk of Air-Canada. A representative of Louada will be nearby. If you miss connections, call W. W. Donaldson, (705) 743-6980.

If you are coming by train, you may find it just as convenient to continue by train from Toronto to Peterborough. However, if this doesn't work out, call the farm and we will include you in the cars coming from the airport. Cars will also be going back to the airport after the sale.

Cars from Peterborough

If you are without transportation upon arriving in Peterborough, contact the farm. On sale day cars will leave from the motel area at approximately 8:00 a.m. and 8:30 a.m.

All train and plane information given here is approximate. Be sure to check with your ticket agent for exact times. Because schedules change, we cannot quote exact times.

We urge you NOT to make your connections so closely that you arrive in Toronto Saturday morning.

Be a Part of the Exciting Louada

The Clan Wil...

Again cattlemen from throughout the world will gather at Louada for what is always the continent's leading Short-horn sale. Will you be among them this year?

*The dams of most of
these International winners
sell at Louada on October 3*

Best Ten Head of the International Five Out of

The magnificent Shorthorns of Louada Manor Farms have a habit of setting new marks for the industry. Among the more recent is their winning the trophy for best ten head of the 1969 International Livestock Exposition. Other herds have won it too, of course, in the 70-year history of the International, but none

Are Again Louada's Seven Years

has won it six times in 12 years. And, Louada is the only herd to win this important award with all bulls, a feat they performed in 1968 and 1963. This bred-in uniformity is your assurance that Louada bulls can be the answer to a major herd improvement problem.

*No other herd in the world
has ever won this significant
honor in five out of seven years*

PEN-Y-BRYN GWYNNE 15th x was among the first Polled Shorthorn females selected for the polled herd at Louada. She's in calf to Kelso Ignition (P) and you can see her on sale day.

Louada's View of the Polled Shorthorn Business

In recent years there has been a decided swing to Polled Shorthorns. No doubt this has been helped to some extent by breeders demanding a great increase in size in one generation of breeding. Strong outcrossing, or hybridization, will accomplish this. We humans are very impatient. Let us make sure that we do not forget the other essentials of a pure breed and carry the hybridization too far.

Here at Louada we have been looking for a Polled Shorthorn bull for some time. The first requirement was that he must be a great individual meeting the modern demands, and at the same time having the characteristics of a sire whose breeding and ancestry would indicate that he should transmit his size, soundness and polled factor.

Second, we reasoned that to use on horned cows, the bull must be of deep polled breeding. This would enable us to bridge the gap as it were. Even out of horned cows, the progeny of Kelso Ignition (P) will have as many or more polled ancestors as most Polled Shorthorns in North America.

In our opinion it is important that we develop our Polled Shorthorns to where they will not only give the commercial cattleman better calves, but also to the point where he can be sure of getting all, or close to all, of his calves polled. To attain this we think we must be very particular about the tops of the heads of our Polled Shorthorns.

It is important that we achieve this with great care and selection as to the usefulness of the breed. We would probably attain the 100% polled factor more quickly by paying no attention to anything but the polled factor. This would never enable us to withstand the strong competition from other breeds, both horned and polled.

It is important that we keep our Shorthorns strong in both horned and polled divisions. Then there is always the opportunity, if it is needed to bring in an outcross of invigorating blood without using cattle of another breed

which means a long, slow process and without any assurance of the end result.

We must bear in mind that some of the breeds creating the most sensation today, and bringing the very high prices do not have any polled branch to their breed. There is a great surge of interest in the newly-imported breeds, called exotic by many people. These breeds are far from being proven for their usefulness in this country beyond the first cross. Almost any breed can give a good account of itself in a first cross. If these breeds are used for several generations it is quite possible that many troubles will arise in the range herds. There will be many of these breeds used to varying extent, and this will result in millions of cattle in North America of very mixed ancestry that will probably be called mongrels. This should create a great market for Shorthorn bulls of the right type. It will be necessary to bring these cattle back to where they can produce a uniform crop of calves with butcher popularity, and also to ensure that the female stock will be able to conceive, calve, and mother their calves under any conditions.

BUTTERFLY DESIGN spx is a natural polled sport born at Louada. She's by Louada Red Ensign and out of Fralawn Butterfly 6th by Glastullich Garrison.

LOUADA BUTTERFLY ROSE x is also a member of the Louada Polled Shorthorn unit. She's by Gloriadale Bonaparte x and out of Tutira Butterfly Rose.

We have been asked why we would buy a bull in Australia that traced to any North American breeding whatsoever. In our opinion this infusion of North American breeding in Kelso Ignition (P) is an asset as it proves that the bloodlines of Ignition have the faculty for successful infusing with our North American cattle.

For many years it has been our opinion that to attain, and retain on a long-term basis, the position of a top breed, there must be bulls found and used whose offspring have soundness, quality, and breed characteristics combined with vigour. Then there can be lines of breeding established from which we can get these characteristics without having to continually be in hybridization programs. In our opinion Kelso Ignition (P) should prove to be one of those bulls.

— W. W. Donaldson

KELSO IGNITION (P) — He is the first Polled Shorthorn bull in service at Louada and the first Australian bull ever in service in North America. That should be enough, but there's much, much more. His sire, Dandaloo Royal Duke (P) weighed 2,600 pounds at three years. He's been Australia's "Sire of the Year" over all breeds. He has sired 19 champions and reserves at Melbourne and Sydney. Nineteen of his first 29 sons to be shown at Sydney contested 14 classes to win 12 firsts, nine seconds and two thirds. This year at Sydney's Royal Easter Show, Kelso Ignition (P) was champion in the 18-21 months class. In the sale, eight of his half-brothers averaged more than double the average of the total sale and scored the highest herd average of those herds selling more than three head. These are just a few of the factual achievements behind Kelso Ignition (P). Ignition (P) is the first calf from Kelso Fanny (P) from the Gunnawarra Fanny family—a line exclusive to Australia. Accordingly, he and his sons can be used in any breeding program in North America. Ignition (P) weighed 1,800 pounds at 21 months after being on grass for two months. Moreover, 27 of the first 30 ancestors in his pedigree are polled, and every one in the first three generations buy his service October 3.

Study the great size and uniformity of these half-brothers to Kelso Ignition (P) photographed on pasture in Australia. These yearlings have been raised completely on pasture.

Here's What You'll Want To Know About Kelso Ignition (P)

The following history of the pedigree of Kelso Ignition (P) was written by Andrew Sproat, well-known Australian cattleman and dealer in both cattle and sheep.

In Shorthorn breeding the world over, the word Louada is a symbol of excellence and it has been so for 25 years. It stands for three very important things in breeding — quality, substance and pedigree that have been proved satisfactory for at least ten generations. Cattle bred at Louada have proved themselves in leading Shorthorn studs in different parts of the world, reproducing just what has been bred into them.

W. W. Donaldson realizes the tremendous value of a bull's dam, and no bull has been tried as a sire that did not have an outstanding mother, who came from a proved maternal side.

Louada has always insisted that a prospective sire had to measure up from a character, substance, bone, balance and skin angle in the first instance, and after that, if the pedigree was not one hundred percent sound, he was forgotten.

It can be well seen from the above why Louada cattle are so prepotent and why people rely on them to produce what they require, recognizing that they could not possibly do better than follow the successful Louada pattern. Accordingly, when Louada bought Kelso Ignition (P), it was world-wide news.

Kelso Ignition (P) was bred by George Starritt and Son whose sound Kelso Shorthorn bloodlines are being judiciously and successfully blended with poll individuals of first class breeding, purchased in the most discerning manner. Kelso Ignition (P) not only was an outstanding calf in 1969, but was junior champion in Melbourne the same year. He is sired by Dandaloo Royal Duke (P), one of the top-breeding bulls in Australia. His dam is Kelso Fanny (P), an outstanding female. On both the paternal and maternal sides of Ignition's pedigree there is a wealth of poll breeding, this being of the best Australian and American blood lines. Shorthorn breeding in five generations shows thirteen animals, the balance being Polls out of a total of sixty-two.

Mr. Donaldson and I visited Highbank, Kelso, Merryville, Bogan, Mandalong and Weebollabolla Studs where we saw some

Kelso Hercules (P), a half-brother to Kelso Ignition (P), was reserve junior champion at Melbourne, Australia, in 1968.

Kelso Hector (P), a half-brother to Kelso Ignition (P), was junior and grand champion at Melbourne in 1968 and first at Sydney in 1969.

The great scale of these half-brothers to Kelso Ignition (P) prove the outstanding uniformity of the entire line of cattle.

excellent bulls, mainly being prepared for Sydney Royal Easter Show.

However, Kelso Ignition (P) was the bull most suitable. He has a grand breeder's head and eye, with terrific strength of side face, muzzle and underjaw, set on a well-proportioned neck, displaying excellent neck vein, and moulded into a first class oblique shoulder. Then carrying through a good forerib and running on to an excellent length from hooks to pins. Combining this with a good, thick, tail, a terrific second thigh and first-class hock construction. This is coupled with magnificent quality bone, excellent shanks and feet, and perfectly proportioned forearm. He has outstanding overall ruggedness, length of body, balance and good hair. The really great development of the second thigh, plus forearm, is the best guide one could get to the excellent muscling in the red meat covering the very sound skeletal construction of this bull.

Added to the above, Ignition is backed by first-class pedigree. His sire, the dark red, very lengthy bodied, solid boned, strong-headed, nicely fleshed Dandaloo Royal Duke (P), is one of the very top breeding bulls in Australia today. His male and female progeny have figured prominently at both Sydney and Melbourne Royal Shows for the past three years. In 1968, Dandaloo Royal Duke (P) won the prize awarded each year by Country Life newspaper for the most successful sire of progeny shown throughout Australia for all beef breeds with approximately one thousand sires competing. In 1969, Dandaloo Royal Duke (P) was third in this competi-

tion with roughly the same number of sires competing.

Dandaloo Royal Duke (P) is by a most successful breeding bull, Highbank Matchless Duke (P), by Highbank Determination (P), both bred by the present president of the Poll Shorthorn Society, R. H. Brown. The latter bull was imported in dam, being by the good breeding bull, Oakwood Determination x, by the top breeding bull of his day, Commander-in-Chief x, whose dam, Lady Golden 5th x, was one of the best looking females I saw in U.S.A. in 1950.

The maternal side of Dandaloo Royal Duke (P) is of tremendous interest, bringing in the particularly strong Australian, Scotch and American bloodlines, very successfully blended by the particularly good breeders, K. G. MacKinnon of Bogan Stud and the late Frank Simpson of Gunnawarra Stud, whose fathers laid the foundations of their bloodlines with some of the most magnificent Bates and Booth cattle of their day.

The dam of Kelso Ignition (P), the good-breeding poll female Kelso Fanny (P), has a very attractive head set on a clean-cut feminine neck, laid into an oblique shoulder, and carrying through very well to particularly good length of hind quarter, and pin bones set up and wide apart so there should be no calving problems. She is a wonderful milker and regular breeder. Her last calf is a bull, just as good as Ignition at the same age. He is her third calf and she is only four years old.

The sire of Kelso Fanny (P) was the successful show bull and excellent sire, Karoola Indiana (P), a grand-headed individual with terrific bone and a first-class set of legs with good feet, that bred so well for the Milly Milly Stud and later Karoola. Indiana's maternal sire was one of the best in Australia, and one of the best I have seen anywhere in poll breeding. Karoola Duchess 26th (P), her dam and granddam, were all magnificent females, the latter rearing her calf very well when she was fourteen years old.

The maternal side of Kelso Fanny (P) is as interesting as that of Dandaloo Royal Duke (P) since both combine the best of Australian female lines together with the Bates and Booth blood that was good 100 years ago.

It will be seen that the outstanding influences blended together

successfully by G. Starritt and Son of Kelso Stud to produce Kelso Ignition (P) have been brought about by the combination of outstanding breeding females.

On top of a truly magnificent Bates and Booth background in the eighth, ninth and tenth generation, which were noted for their great heads, beautiful shoulders, length, balanced, long hindquarters, solid-boned bodies with beautiful quality hair that combined the wonderful milking qualities of which Bates and Booth cattle were so famous.

Kelso Ignition (P) will have a wonderful opportunity at Louada, however, his particularly good lines and pedigree should blend magnificently with the wonderful females in the Louada Stud.

Andrew Sproat

Here are more half-brothers to Kelso Ignition (P). Notice their great feet, legs, size and character.

This is the head of Dandaloo Royal Duke (P), the sire of Kelso Ignition (P).

DANDALOO ROYAL DUKE (P)

The Sire of Kelso Ignition (P)

The progeny of Dandaloo Royal Duke (P) were first shown at the Melbourne Royal 1967, in classes under 15 months.

The seven head gained four firsts, three seconds and included Kelso General (P), reserve junior champion bull and Kelso Fancy Loo (P), reserve junior champion heifer. Kelso General (P) went on to Sydney in 1968 and was first under two years. The breeding significance was indicated at 1970 Sydney Royal where a son, Kelso Immanuel (P), was first. At this point, Dandaloo Royal Duke (P) has sired nineteen champions and reserve champions at Melbourne and Sydney Royals. Nineteen of his first 29 sons were shown and contested 18 individual classes for 14 firsts, 11 seconds and two thirds. In these 18 classes contested, they were placed first and second on seven occasions and first and third three times. All of this was at the last three Sydney and Melbourne Royals. Females by Dandaloo Royal Duke (P) have also been shown to great advantage. Kelso Fancy Loo (P), reserve junior champion, Melbourne 1967 and senior and grand champion at Melbourne in 1968. Kelso Lustrous Jean (P), reserve junior champion, Melbourne 1968 and reserve senior champion at Sydney 1969. Kelso Matchless Miss 2nd (P) was junior champion at Melbourne in 1968. Kelso Delightful 2nd (P) was reserve junior champion at Sydney and senior champion at Melbourne in 1969. Kelso Minnie 3rd (P) was junior and grand champion at Melbourne in 1969.

Perhaps some of his best winners were: Kelso General (P), reserve junior champion Melbourne 1967; Kelso Grand Master (P), junior champion, Sydney, 1968; Kelso Hector (P), junior and grand champion, Melbourne, 1968, first Sydney, 1969; Kelso Hercules (P), reserve junior champion, Melbourne, 1968, and Kelso Hussar (P), senior and reserve champion, Melbourne, 1969, second Sydney, 1970; Kelso Ingram (P), junior champion, Sydney, 1969; Kelso Inca (P), first under 15 months Sydney 1970, and Kelso Intruder (P), third under 21 months, Sydney, 1970.

DANDALOO ROYAL DUKE (P)
The Sire of Kelso Ignition (P)

A rear view of Dandaloo Royal Duke (P)

This is Dandaloo Royal Duke (P) on pasture in Australia weighing 2,600 pounds.

A number of Dandaloo Royal Duke's daughters are now breeding at Kelso and they promise to be just as significant in every way as his good sons now doing duty in approximately twenty studs throughout Australia, New Zealand and North America.

Karoola Indiana (P) was a roan, by Priam Royal Leader (P) (imp. U.S.A.) from Karoola Duchess 26th (P). Karoola Indiana (P), was sold in 1961 to the Kelso Partnership when he was first under 12 months and reserve junior champion at Sydney. In Melbourne the same year, he won the under 18 months class and went on to be junior champion and grand champion Poll Shorthorn. Indiana (P) was among the best bulls sired by the great Priam Royal Leader (P). He is a roan with a good head, a grand top and a beautiful skin with plenty of bone and is breeding really well for the Kelso Partnership. He sired second prize winners in the Sires' Progeny Group in Melbourne, 1963, and the reserve junior champion bull, Kelso Comrade (P). At Melbourne, 1964, he sired four bulls exhibited by Kelso Partnership, and these were awarded first, second, third and fourth prizes and the junior championship. At Sydney Royal, 1964, two sons were awarded first and second prizes and the reserve junior championship. The latter, Kelso Comrade (P) sold to W. & J. Warby. In Sydney, 1965, a daughter was second under 21 months, and sons, Kelso Defiance (P) and Kelso Delight (P). In Melbourne the same year, a son, Kelso Diamond (P) was second under two years, and another son, Kelso Deacon (P), was second under 21 months. In the under 18 months class Kelso Event (P) was first, and Kelso Elite (P) was third. Another son, Kelso Envoy (P), was first in the under 12 months class, and daughters were second under 15 months and third under 12 months.

At Melbourne, 1966, a son was first in the under 18 months class, one was first and junior champion, and another son was second in the same class. Two other sons were third in the under 15 months and under 12 months classes respectively.

At Sydney in 1967, two of his sons came second and fourth respectively over two and a half years.

Kelso Fanny (P) is the dam of **Kelso Ignition (P)**. He was her first calf. She is pictured here as a three-year-old.

FOUR DEES COMMAND 50th x

Called the grand old man of Polled Shorthorns, he's still going strong at 13 years. His champion sons and daughters from both Four Dees and Fair Acres, are well known. They were the talk of the recent "International Holiday Sale" where they included the top-selling bull and both top females. Moreover, Command 50th x is one of the bigger Polled Shorthorn bulls in service today. He's by Collynie Command 50th x and every animal in the first four generations of his pedigree is polled. He will be used jointly with Kelso Ignition (P) in the new Louada Polled Shorthorn program. Louada has possession of the 50th x, but he is owned jointly with Miles Mann and Four Dees Farms.

Marigold 7th x by Four Dees Command 50th x was the second top female of the "International Holiday Sale," selling to Vic and Marian Bowman, Oregon City, Ore.

Here Are Just Three Reasons for Louada's Buying the 50th x

Left — Fair Acres Command 50th x by Four Dees Command 50th x was top bull of the "International Holiday Sale."

Right — Soncie Goods x by Four Dees Command 50th x was top selling female at the "International Holiday Sale," going to Vic and Marian Bowman, Oregon City, Oregon.

CHAPELTON GLEN FYNE — Only a long yearling when he arrived from Scotland a year ago, Glen Fyne was just growing and doing well. He's still in lean, muscular condition, but he is more approaching his mature form. Nonetheless, breeders commend him for his structural soundness. He's straight and true and has little brisket and no excess fat in flank, brisket or twist. Everyone likes his length and trimness and comments on his powerful hind legs and good feet. If you are serious about breeding good cattle to meet the modern demand, you'll like Glen Fyne. He came from the James Biggar herd at Castle Douglas, Scotland. He's by Denend Glendrossan that was champion of the 1966 Royal Highland. His dam is the beautiful Cathie Floss by Chapelton Clipper Chief. She's backed with a generous blend of Cruggleton and Calrossie at their very best. You can buy his first calves at foot and his service in this historic dispersion.

DUNCRAHILL HAPPY MAN — The massive Duncrahill Happy Man is by Denend Ragusa that was a very popular supreme champion at Perth in 1965. Ragusa had the highest rate of gain per day of age of any Perth champion of all time. The dam of Happy Man is the strong Duncrahill Barbara Broadhooks by Chapelton Principal. The top sires in her pedigree came from Cruggleton and have stood for size and substance for generations. Happy Man is a big bull and he probably contains more outcross blood than any bull in service in North America today except Kelso Ignition (P) himself. In a day when breeders demand length, thickness and smoothness, Happy Man can be the answer. A full crop of his calves at Duncrahill are all the proof we need for Louada. You're sure to like his first calves that are at Louada now. He is owned jointly with Mr. and Mrs. Gregg Kerr, Saxonburg, Pa., who have possession at the present time. You can buy his calves and service on October 3.

All of these sell. From left are, Frailawn Butterfly 11th, Lot 68; Louada Wendy Wimple 5th, Lot 86; Louada Queen Della, Lot 19; Louada Bright Princess, Lot 32; Louada Princess Rhonda 4th, Lot 80; Denend Rothes Flo, Lot 21. The calves are by Woodhead Buchan and Duncrahill Happy Man.

Your Opportunity Is the Louada Dispersion

All of these sell. From left are Louada Wendy Wimble 7th, Lot 87; Louada Princess Eve 3rd, Lot 33; Louada Actress 3rd, Lot 71; Blood Royal Joyce, Lot 8; M F Farm Blossom 42Z, Lot 30, and Louada Maisie Broadhooks 2nd, Lot 47.

Here it is, the basic foundation material from which the Louada success has been built. Only under these circumstances would any herd ever sell the females it has taken a quarter of a century to assemble.

What value can you place on a Louada female? Over the years, those who have purchased them have soon found that whatever the price, it is quickly returned in just one or two calves . . . if you choose to sell those calves. Most of their daughters are usually retained, however, and an unusually large number of Louada cows sold to others have produced stock bulls for their new owners.

Each Louada female is backed by decade after decade of breed improvement from the master breeders of the world, all carefully fused by years of Louada's own careful program. Your

Louada female is no accident. She is the result of generations of the best blood the world has ever known. Doesn't that almost insure the high quality of the calves she will produce for you.

This sale represents opportunities beyond that of the regular dispersion. There are a great number of calves selling at foot by the newly imported Dunrahill Happy Man and Chapelton Glen Fyne, two of the most popular bulls of the day.

Beyond that, consider the great value of purchasing a female in calf to Kelso Ignition (P). You can be among the first to own polled calves by this great Australian bull. Think of the value of just one of his calves out of one of the great Louada cows.

Louada is selling the work of 25 years together with the vision of the future. How much of it will you own?

Denend Queen Yvonne, Lot 12, and her bull calf by Duncrahill Happy Man.

DENEND QUEEN YVONNE — A cow with a bit of age but a great matron. She is a daughter of Bapton Brave Robin, a bull that was ahead of his time for size. At the time Brave Robin appeared, he was criticized for one fault according to many breeders in Scotland — his great size, vigor and strength were overlooked. Denend Queen Yvonne is the dam of Louada Quentin that sold in our 1969 sale to M-F Farms, Milliken, Ont. She has at foot a dark roan calf by Duncrahill Happy Man, born May 29, that could make a stock bull for someone. Served again to Kelso Ignition (P).

From left are, Louada Queen Della, Lot 19, and Louada Judy Clara 2nd, Lot 13.

BACK COVER

Kelso Ignition (P) at 21 months. Anthony Fountain of Jungarra, Australia, writing in his column "Shorthorns Down Under" in the Aug. 1, 1970, issue of The Shorthorn World said: "The announced news of the export of semen from Kelso Ignition (P) from the Kelso stud to Louada Manor Farms and Tutira is very pleasing news indeed for Australia Poll Shorthorn breeders. The writer can assure the readers that the importers have bought 'a beauty'. Ignition has what many top judges of the breed here class as one of the best hindquarters of any Poll or Beef Shorthorn bull in Australia, and one only has to look at the success of the progeny of Dandaloo Royal Duke (P) his sire, to see how these bulls breed. No doubt Ignition's progeny will be awaited by the breed followers all over North America, and it is to be hoped that this is the forerunner of things to come."
